

Smart Board Quick User Guide:

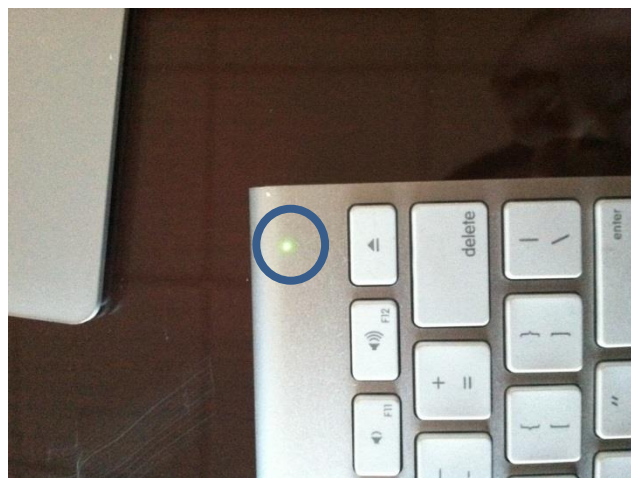

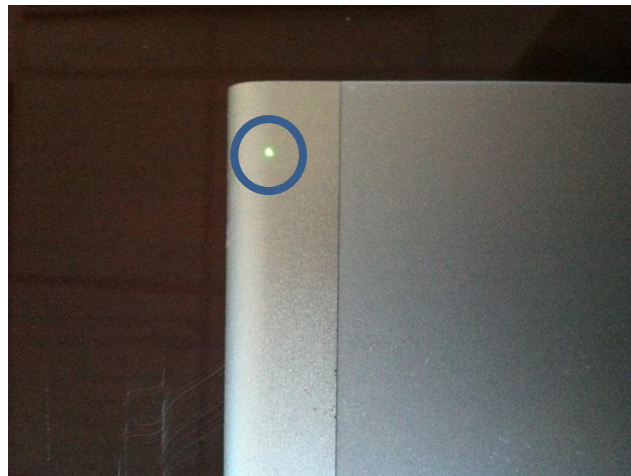

- 1) To turn on the smart board, press the ON/OFF button on the board itself (picture here)

- 2) On the wall plate, press button 5 (to the right of DVD/VCR button)
- a. If you are using the room computer, make sure it is on

3) Make sure the track pad and keyboard are on (picture here). Press the power button to do so, a green light will turn on for a couple seconds

4) Upon turning on the Smartboard projector, the computer should be logged

5) The Smartboard markers shown below can be used to write notes directly on the Smartboard screen

6) The Smartboard PC should auto-login and look similar to this:

7) Using the Smartboard markers will allow you to write notes on the Desktop.

****please do not use regular or dry erase markers on the Smartboard****
